Matrix 2

Now available in four new patterns, CONTOUR Wall and Ceiling Tiles come in several subtle to dramatic sculpted designs that can easily be mixed and matched to create a unique look. Custom patterns and color matching are also available for creating a breathtaking signature ceiling.

CONTOUR tiles add distinction, value and outstanding acoustical control to offices, call centers, lobbies, entertainment facilities, conference rooms, entries and retail stores among others.

illbruck's CONTOUR tiles are available in two different versions—wall and ceiling tiles. CONTOUR Ceiling Tiles are easy to install in drop-in grid systems. CONTOUR Wall Tiles

are ideal for adhesive installations on wall or ceiling surfaces.

Superior style and excellent performance—CONTOUR tiles are simply the ultimate in wall and ceiling design.

CONTOUR Ceiling Tiles are constructed to help block sound and noise, such as conversation and machine clatter, from traveling into adjacent rooms.

Surface	Dimension	Features
4 new and 10 current standard patterns, 4 standard colors	24" x 24" x 1-5/8" 24" x 24" x 2-3/8"	NRC from 0.65 to 1.20, CAC of 34 with backerboard, LR of 0.86, fire-retardant, lightweight, Hypalon® coated
